

Capulus Connect - Safe Chat

www.capulustech.com

ABOUT THE APPLICATION

Capulus Connect - Safe Chat is a secure, feature-packed communication platform designed to protect your privacy and enhance your experience. With state-of-the-art end-to-end encryption, it ensures that your messages, voice, and video calls stay private. Share photos, videos, and files effortlessly using robust multimedia sharing features, knowing your data is protected every step of the way.

Beyond messaging, Capulus Connect - Safe Chat offers innovative tools to streamline your workflow, making it much more than just a communication app. Its sleek, user-friendly interface is designed for everyone, providing easy navigation for personal or professional use.

Stay connected with confidence, whether catching up with friends, collaborating with colleagues, or keeping in touch with family. Safe Chat prioritizes your data security, giving you peace of mind every time you communicate.

FEATURES

MESSAGING

● End-to-End Encryption

All messages are encrypted from sender to recipient, ensuring that no third party, not even Safe Chat, can read or access them. This guarantees your conversations remain private.

● One-to-One and Group Chats

Connect with individuals or groups easily. Group chats are perfect for families, friends, or teams, allowing smooth collaboration and communication.

● Voice Messages

Record and send voice notes for quick, hands-free communication. Ideal for when typing is inconvenient or when you want to convey emotions more effectively.

● Disappearing Messages

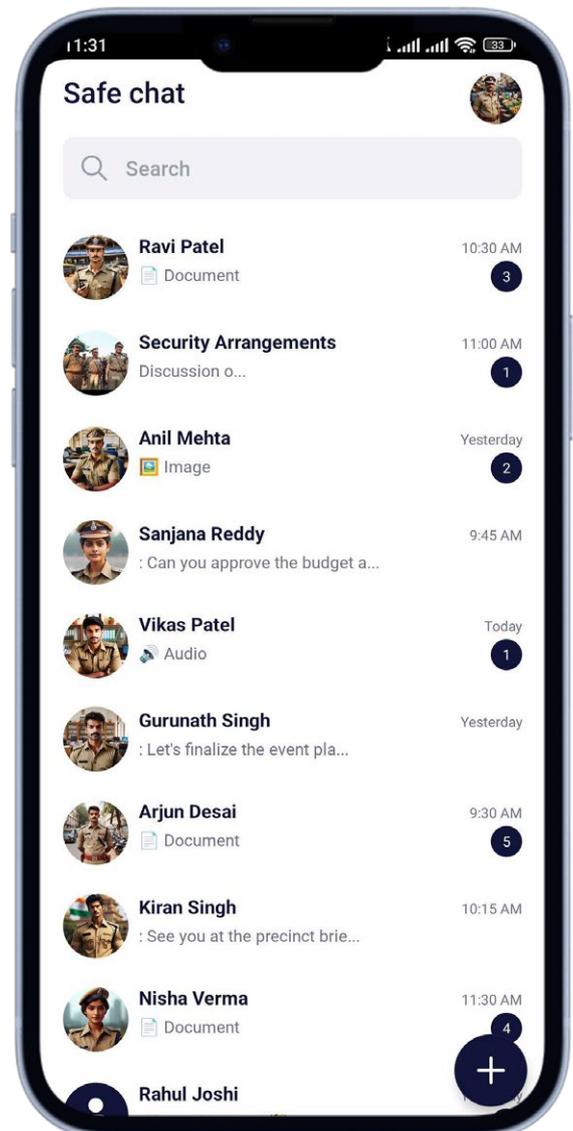

Set messages to automatically delete after a chosen timeframe, adding an extra layer of privacy for sensitive conversations.

● Message Reactions

Quickly respond to messages with expressive emojis, making interactions more engaging and lively.

● Message Editing and Recall

Edit sent messages to fix errors or recall messages to remove them from both your device and the recipient's, ensuring complete control over your chats.

MULTIMEDIA

● Image and Video Sharing

Share media directly from your gallery or camera. High-quality compression ensures fast sharing without compromising media quality.

● Document Sharing

Seamlessly send documents in various formats like PDFs, Word files, or presentations, making it easy to exchange important files securely.

● Voice and Video Calls

Stay connected with crystal-clear voice and video calls. Group calling features allow multiple participants for virtual meetups or team discussions.

OTHER FEATURES

● Status Updates

Share temporary posts with text, photos, videos, or GIFs that disappear after 24 hours, giving a dynamic way to keep your contacts updated.

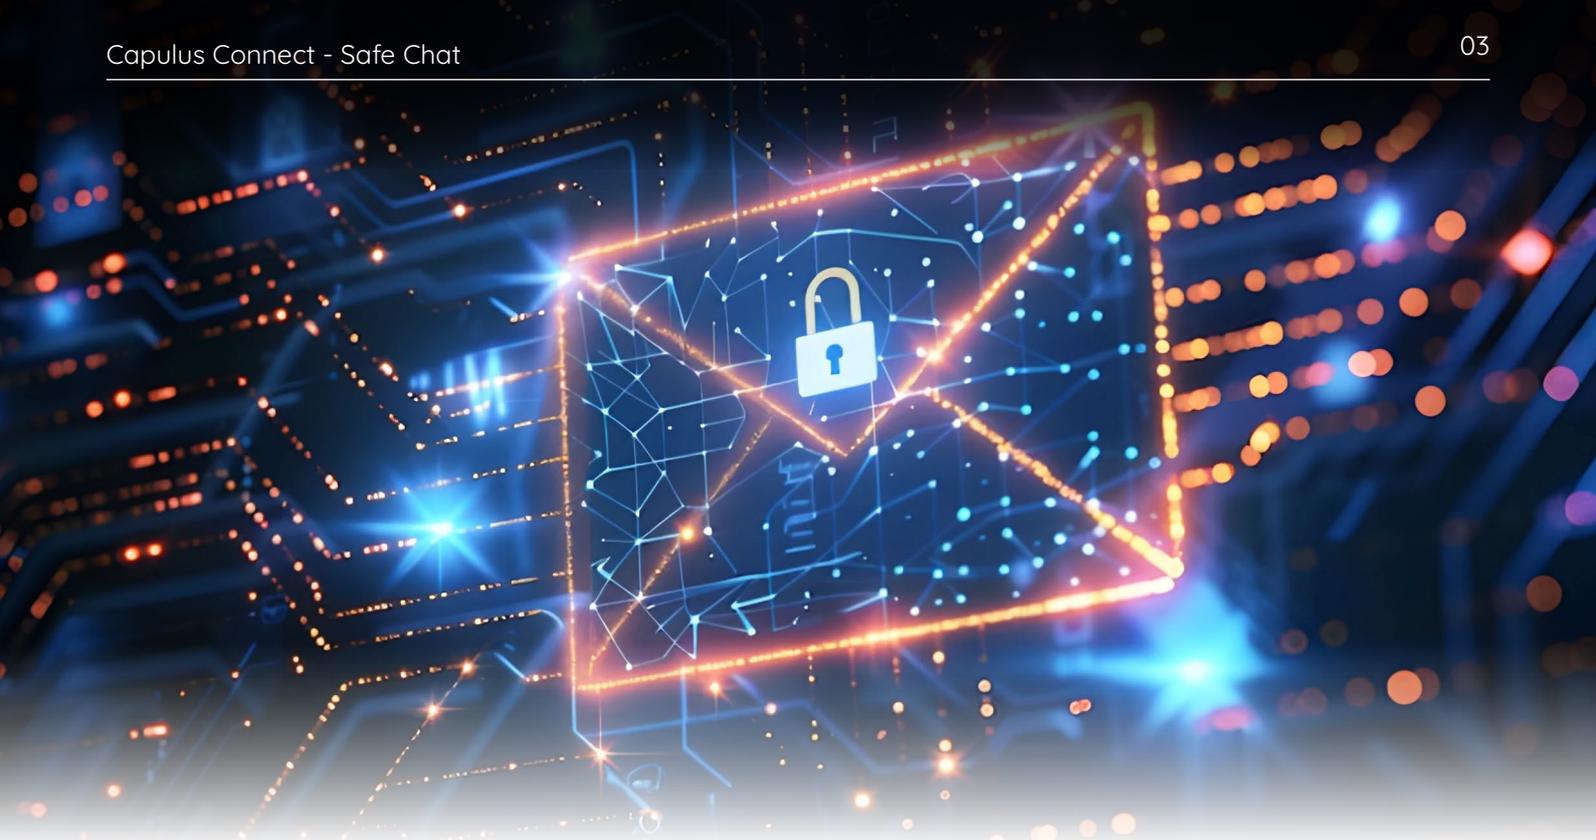

● Location Sharing

Let others know your current location in real time, useful for meetups or ensuring safety when traveling.

● Broadcast Messages

Send a single message to multiple contacts simultaneously, ideal for announcements or updates without creating a group.

ADDITIONAL FEATURES

● Dark Mode

A visually appealing interface designed for low-light conditions, reducing eye strain and conserving battery life.

● Regional Language Support

Communicate in your preferred language, with support for English, Kannada, Hindi, and other Indic languages, making the app accessible to a diverse user base.

● Biometric Authentication

Add an extra layer of security with fingerprint or face recognition, ensuring that only you can access your account.

● Customizable Notifications

Tailor notification sounds, vibrations, and settings for individual contacts or groups, so you never miss an important message.

● Backup and Restore

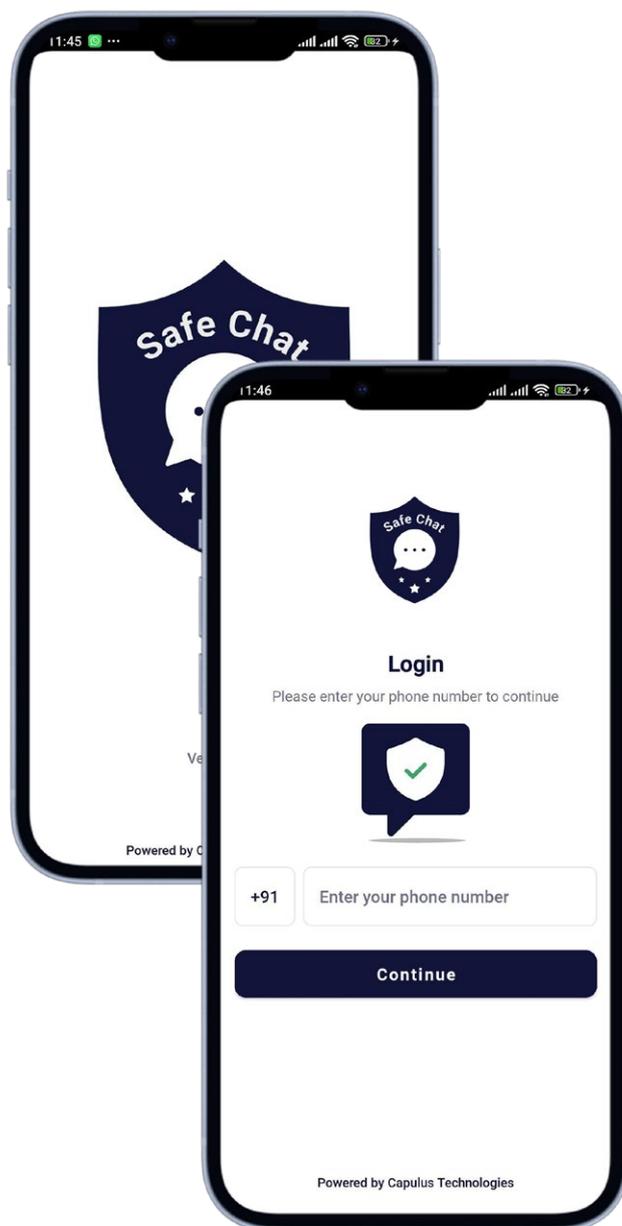

Safeguard your chat history with easy backup options. Effortlessly restore chats when switching to a new device or recovering data.

● Chat BOT Integrations

Integrate intelligent bots into your conversations for automated replies, reminders, or fun interactions, enhancing your messaging experience.

● User Profiles

Create personalized profiles with photos and status updates, making it easier for others to recognize and connect with you.

SAFETY AND SECURITY

Safe Chat is built with your privacy as its top priority, offering a robust communication platform designed to keep your data safe and secure. At its core is state-of-the-art end-to-end encryption, ensuring that no one—not even us—can access your messages, voice calls, or video chats. Every conversation stays between you and the intended recipient, giving you unparalleled confidence in your online interactions.

To further safeguard your account, Safe Chat incorporates advanced biometric authentication and two-factor authentication (2FA), creating an extra layer of protection against unauthorized access. These features work together to ensure that your account is always in your hands, providing you with peace of mind whether you're communicating for personal or professional reasons.

Safe Chat also offers privacy-focused features like disappearing messages, which automatically remove sensitive content after a set time, keeping your conversations private and secure. Additionally, secure file-sharing options allow you to send photos, documents, and other files confidently, knowing that they're protected by cutting-edge security measures.

Your data is stored with the utmost care, safeguarded by industry-grade security protocols that defend against breaches and unauthorized access. Whether you're sharing a private moment or critical information, Safe Chat ensures your data remains confidential and protected at all times.

NO DATA SHARING WITH EXTERNAL SERVICES

At Capulus Technologies, we prioritize your privacy above all else, ensuring that your personal information remains secure and under your control. Safe Chat is specifically designed to safeguard your data, with a strict commitment to never sharing it with external services or third parties. Whether it's your messages, voice or video calls, or profile information, everything you entrust to Safe Chat stays securely within the platform's well-protected environment.

Our service is hosted in an on-premise environment, eliminating reliance on external cloud providers. This approach ensures that all your data remains within a closed, secure system managed directly by us, further enhancing the safety and integrity of your information. By maintaining this tightly controlled ecosystem, we minimize the risk of unauthorized access or data breaches, providing you with complete peace of mind.

Additionally, Safe Chat operates with full transparency, giving you confidence in how your data is handled. We believe that trust is built on clear policies and robust safeguards, which is why we ensure that every layer of our platform aligns with the highest privacy standards.

By keeping your data exclusively within our ecosystem, Capulus Technologies redefines user trust, setting a new benchmark for security and privacy in communication platforms. With Safe Chat, you can connect, share, and collaborate freely, knowing your information stays within the secure boundaries of our trusted system.

Choose Safe Chat and experience the perfect blend of privacy, security, and seamless communication. Your data, your control—because your trust is our greatest asset.

Capulus Connect - Safe Chat

Redefining Secure Communication
